About ER Group, LLC

ER Group, LLC is a provider of business intelligence, software tools and administrative management services to government and private entities in the emerging markets in Africa.

We work collaboratively with our strategic partners to develop customized information technology solutions that allow our customers to operate their business processes more efficiently and with substantial cost savings.

We draw on our unique business methods while leveraging the proprietary software and technology solutions of our strategic partners.

We use leading internet and cloud computing capabilities and other market economies' competitive advantages to provide outsourced administrative management services to our customers.
